Safety information

Hair clippers and trimmers

Read before use and keep these instructions.

Cutting sets, guide combs, guards and external replacement accessories.

> Broken comb teeth or a projecting moving blade can cut skin. Do not improvise zero-gap alignment or use a loose guard. Keep fingers away from cutters. Stop for snagging, excessive heat or damaged teeth.

Switch off the device, disconnect external power and prevent automatic or remote starting before replacement. Let moving parts stop. Isolate batteries or other energy sources as the device manufacturer directs; do not dismantle a built-in battery. Replace only user-serviceable parts. Internal electrical or structural repairs belong to a qualified service provider.

Warnings

Keep loose small parts, magnets and packaging away from small children and animals. Do not put parts in the mouth. If a magnet or button battery may have been swallowed, seek urgent medical help. Follow implanted-device manufacturers' advice around magnetic accessories. These parts are not toys.

Stop using a loose, cracked, deformed or damaged part, or if abnormal heat, noise, vibration, leakage or skin irritation occurs. Secure the device against restarting. Report safety issues to kontakt@yivo.pl and claims to reklamacje@yivo.pl, identifying the product, device model and problem; photos and an order number help. Seek emergency help for immediate danger.

Remove hair with a suitable soft brush. Lubricate only specified points with compatible clipper oil if required; remove excess. Wash or disinfect only as permitted for the part. Let dry before use and protect cutters in storage.

Store clean and dry, away from heat and sunlight. Sort packaging and worn parts under local collection rules; protect sharp edges. Parts containing electronics or batteries require the appropriate separate collection. These instructions do not restrict statutory rights against the seller. Any commercial guarantee is additional.
