Safety information

Ear tips and in-ear headphone covers

Read before use and keep these instructions.

Replaceable silicone or foam ear tips and compatible in-ear covers.

> A loose tip can remain in the ear or be swallowed. If stuck in the ear, do not use sharp tools; seek medical assistance. Stop for pain or irritation. Do not share unclean tips. Noise isolation can reduce awareness of traffic and other hazards.

Switch off the device, disconnect external power and prevent automatic or remote starting before replacement. Let moving parts stop. Isolate batteries or other energy sources as the device manufacturer directs; do not dismantle a built-in battery. Replace only user-serviceable parts. Internal electrical or structural repairs belong to a qualified service provider.

Warnings

Keep loose small parts, magnets and packaging away from small children and animals. Do not put parts in the mouth. If a magnet or button battery may have been swallowed, seek urgent medical help. Follow implanted-device manufacturers' advice around magnetic accessories. These parts are not toys.

Stop using a loose, cracked, deformed or damaged part, or if abnormal heat, noise, vibration, leakage or skin irritation occurs. Secure the device against restarting. Report safety issues to kontakt@yivo.pl and claims to reklamacje@yivo.pl, identifying the product, device model and problem; photos and an order number help. Seek emergency help for immediate danger.

Clean removed tips according to material. Rinse silicone only when permitted and dry fully before refitting. Do not soak foam or use solvents. Replace torn, hardened or poorly fitting tips.

Store clean and dry, away from heat and sunlight. Sort packaging and worn parts under local collection rules; protect sharp edges. Parts containing electronics or batteries require the appropriate separate collection. These instructions do not restrict statutory rights against the seller. Any commercial guarantee is additional.
