Safety information

Protective cases and watch bumpers

Read before use and keep these instructions.

External protective cases and bumpers for the indicated watch or wearable model.

> A case does not guarantee protection against every impact or increase the device's water-resistance rating. Do not use a cracked case with sharp edges or blocked controls, sensors or ventilation. Stop if the device heats unusually during charging.

Warnings

Keep loose small parts, magnets and packaging away from small children and animals. Do not put parts in the mouth. If a magnet or button battery may have been swallowed, seek urgent medical help. Follow implanted-device manufacturers' advice around magnetic accessories. These parts are not toys.

Stop using a loose, cracked, deformed or damaged part, or if abnormal heat, noise, vibration, leakage or skin irritation occurs. Secure the device against restarting. Report safety issues to kontakt@yivo.pl and claims to reklamacje@yivo.pl, identifying the product, device model and problem; photos and an order number help. Seek emergency help for immediate danger.

Remove the case before cleaning. Use the gentle cleaning rules for its material; dry fully before fitting. Avoid solvents and heat. Replace stretched cases that no longer retain the device.

Store clean and dry, away from heat and sunlight. Sort packaging and worn parts under local collection rules; protect sharp edges. Parts containing electronics or batteries require the appropriate separate collection. These instructions do not restrict statutory rights against the seller. Any commercial guarantee is additional.
