Installation and care

Protective cases and watch bumpers

Read before use and keep these instructions.

Intended use

External protective cases and bumpers for the indicated watch or wearable model.

Use only the YIVO accessory specified for your device model, dimensions and mounting system. Keep the packaging or purchase record identifying the product and batch, if marked. These category instructions supplement the device manual; they do not confirm compatibility with every model. If instructions conflict or the part does not fit, stop and contact YIVO.

Installation

Clean and dry the device and inside of the case. Align buttons, sensors, microphone openings and charging points. Fit without bending the device or pressing the screen. Check controls and charging clearance. Remove regularly to clear trapped grit and moisture.

> A case does not guarantee protection against every impact or increase the device's water-resistance rating. Do not use a cracked case with sharp edges or blocked controls, sensors or ventilation. Stop if the device heats unusually during charging.

Cleaning and storage

Protective cases and watch bumpers

Remove the case before cleaning. Use the gentle cleaning rules for its material; dry fully before fitting. Avoid solvents and heat. Replace stretched cases that no longer retain the device.

Start with a soft, dry, lint-free cloth. For a removable, non-porous surface compatible with water, use a cloth lightly dampened with clean water, then dry naturally. Keep liquid out of openings and electrical contacts. Do not soak leather, foam, glued layers or unmarked filters. Avoid solvents, abrasives, bleach, steam and direct heat unless expressly permitted for the accessory and surface.

Warnings

Keep loose small parts, magnets and packaging away from small children and animals. Do not put parts in the mouth. If a magnet or button battery may have been swallowed, seek urgent medical help. Follow implanted-device manufacturers' advice around magnetic accessories. These parts are not toys.

Stop using a loose, cracked, deformed or damaged part, or if abnormal heat, noise, vibration, leakage or skin irritation occurs. Secure the device against restarting. Report safety issues to kontakt@yivo.pl and claims to reklamacje@yivo.pl, identifying the product, device model and problem; photos and an order number help. Seek emergency help for immediate danger.

Store clean and dry, away from heat and sunlight. Sort packaging and worn parts under local collection rules; protect sharp edges. Parts containing electronics or batteries require the appropriate separate collection. These instructions do not restrict statutory rights against the seller. Any commercial guarantee is additional.
